Patricia Flynn	Belfast City Council	✓	
Ms. Laura Rankin	CYPSP	✓	

	<p>currently being met.</p> <p>The biggest issue coming through hubs at present is primary school aged children with emotional and behavioural support issues, which could be from a number of underlying issues that need to be addressed by the hubs. This issue is also coming through as a regional issue.</p> <p>Mr. Largey noted that there is a big issue around poverty, and there have been 6/7 new food banks opened in the last year. Locally there is a number of issues around drug and alcohol prevalence and this has been linked to a number of deaths. There have also been murders and attempted murders in Belfast in recent days, which has repercussions coming through the hubs for family members.</p> <p>It is of concern that the Hubs may be masking the issue of insufficient Service Provision for Hardiker Level 3 families in some areas. Lesley agreed to raise these issues re: unmet need via the Chairs Group.</p> <p>Organisations added that there has been a lot of goodwill by people in the hubs as there is a lot of work being done with the small pot of money that has been provided for the co-ordination.</p> <p><b>Ms. Walker</b></p> <p>It was raised that Helen Dunn is working on a SCIE report and evaluation- Mr. Largey agreed to have a conversation with her re. this and feedback at the next meeting.</p> <p><b>Mr. Largey</b></p> <p>Mr. Largey mentioned that both North Belfast hubs launched last week and noted that there was great support from the community. There is a workshop with the hub leads scheduled for the 17<sup>th</sup> June. Further details about this to be circulated.</p> <p><b>Mr. Largey</b></p>
<p><b>Mr. Largey</b></p>	<p><b>4. Locality Planning Update</b></p> <p>Ms. Hardy noted that the format of the Locality report has changed as a regional report is being developed for consistency. An unmet need form is being developed for the hubs and this will be designed and signed off. This will be reported back on at the next Outcomes Group.</p> <p>Ms. Rankin and the Chairs of the Locality Planning Groups gave an update of the work of the Locality Planning Groups, as follows:</p> <p><u>North Belfast-</u> The North Belfast Locality Planning Group are planning to attend a health fair in the Girls Model School in June. This event will give members the opportunity to gain information from an evaluation at the event to a mixture of young people and families.</p> <p>Michelle Harris from Collective Impact has been attending the North Belfast Locality Planning Group. This project is being carried out in North Belfast and Antrim. In North Belfast Collective Impact will work to a small number of strategic outcomes which will focus on improvements in educational attainment, wellbeing and community connections. Michelle is working closely with the Locality Planning Group in North Belfast in relation to Outcome 1 of their Action Plan.</p>

<p><b>Ms. Rankin/ Ms. Andrews</b></p>	<p><u>South Belfast-</u> In 2014/15, members of the South Belfast Locality Planning Group put together a directory of Mental Health Services in the South Belfast area, which was identified need at the Locality Group.</p> <p>The South Belfast Locality Planning Group identified positive engagement with education as one of their outcomes. To look at these educational issues in more detail, a sub group has been identified, with attendance from relevant groups such as Scoil an Droichead, PUL and SEN.</p> <p><u>East Belfast-</u> Concerns had been raised in East Belfast about the numbers of Children and Young People taking part in risky behaviours, as identified in the action plan. In May 2015 Jacqui Montgomery-Devlin from Barnardo's Safe Choices and Sharon Traynor from EBCDA talked about Child Sexual Exploitation. In the conversations which followed, it was agreed it was important to spread these messages and hold a workshop type event. This event is due to take place in September 2016.</p> <p>Ms. Walker noted that the Trust will be able to provide their Child Sexual Exploitation worker to come to the workshop in September. East Belfast Chair/ LPG worker to link with the Trust re. this.</p> <p><u>West Belfast-</u> One of the outcomes decided by the LPG members in the West Belfast area is 'ALL children and young people will have access to inclusive community services and social activities'. Members expressed a desire to make the local area a 'disability friendly zone' and organisations would hold a 'statement/ charter of excellence' to show inclusion of all children in the West Belfast area.</p> <p><u>All LPGs-</u> As one of the main priorities in all Locality Planning Groups in Belfast, Autism NI delivered 3 Autism Awareness sessions for members, hosted by NIACRO. This enabled over 100 front line staff, including health visitors, to take part in the sessions. Participants felt that the sessions were very useful, informative and was delivered excellently.</p> <p>Locality Planning Groups identified a need for a record of local training which is taking place, as some training courses are oversubscribed and others are not running at full capacity.</p> <p>All Locality Planning Groups have either had a presentation from the Family Support Hubs in their area. It was acknowledged that this has been useful to understand issues of referral, unmet need and help inform planning at an early stage.</p> <p>Each Locality Planning Group chair gave a presentation to Women's Aid about what is happening in each area. This was a great opportunity to strengthen linkages.</p>
<p><b>Mr. Largey</b></p>	<p>Mr. Largey made the group aware that he is still working on the evaluation toolkit and has been doing a scoping exercise. He advised it would be ready for the next Outcomes Group and agreed to put it on the agenda for the next Outcomes Group.</p> <p>Ms. Hardy updated the group on the funding of Locality Planning. There is permanent funding for Locality Planning Groups regionally, including Belfast. There was a discussion around what would be the best way to use</p>

<b>Ms. Walker</b>	<p>toolkit around food, fuel and finance. This is available if any hubs would like to use it. Jim agreed to feed back about this at the next Outcomes Group meeting.</p> <p>The new SEN regulations and Code of Practise will be out in the Autumn time and will be accessed online. The group agreed it would be useful to hear more about these at both Outcomes and Locality Planning level.</p> <p>EITP progress report- An informal EITP progress report was shared; however the full report has not yet been circulated. Ms. Walker agreed to ask Mr. Leeson to share this information.</p> <p>Ms. Walker noted that this is Ms. Hardy's last meeting, as she is leaving through VES and took the opportunity to thank her for all her hard work and support over the past number of years to the Outcomes Group and the setting up of Locality Planning Groups in Belfast.</p>
