ACEs = Adverse Childhood Experiences

ACES Connection

Healthy, happy kids grow up to

"What's wrong with you?"

Blame Shame Punishment

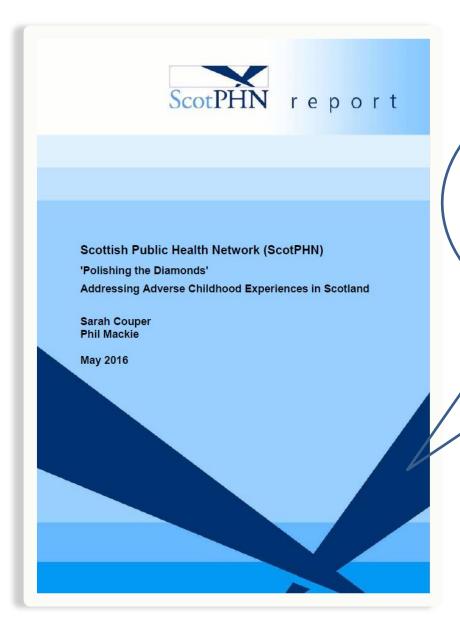

"What happened to you?"

Understanding Nurturing Healing

Scottish Public Health Network Report May 2016

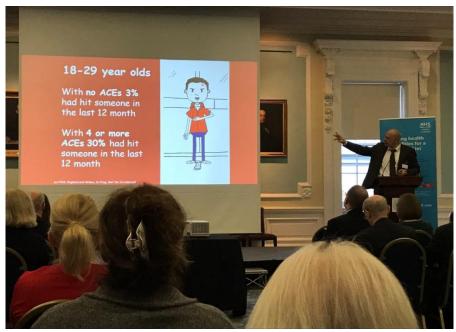

"The evidence of impact of adverse childhood experiences is compelling, as is the case for action from a moral and financial perspective at an individual level and to prevent the repeated cycle of intergenerational transmission."

The Scottish Adverse Childhood **Experiences Hub**

The Scottish Adverse Childhood Experiences Hub

Purpose:

- 1. Increase understanding of ACEs in Scotland
- Develop actions to better prevent ACEs, and support the resilience of children and adults affected to mitigate the negative impacts of ACEs

Paper on ACEs and Attainment June 2017

The Scottish Adverse Childhood Experiences Hub

Health Scotland

"Schools are in a fantastic position to help support children and mitigate some of the effects that ACEs may have by recognising the factors which might affect children, building trusting relationships with them...and responding in a psychologically informed manner."

http://www.healthscotland.scot/publications/tackling-the-attainment-gap-by-preventing-and-responding-to-adverse-childhood-experiences

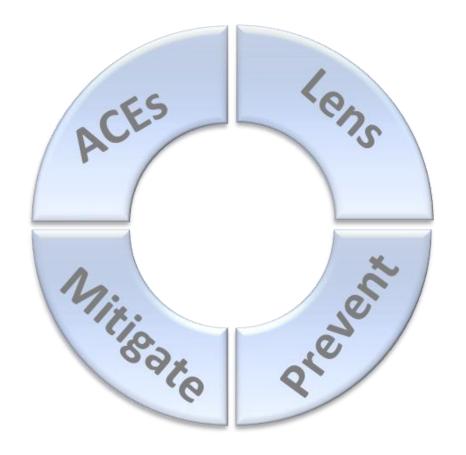

Programme for Government September 2017

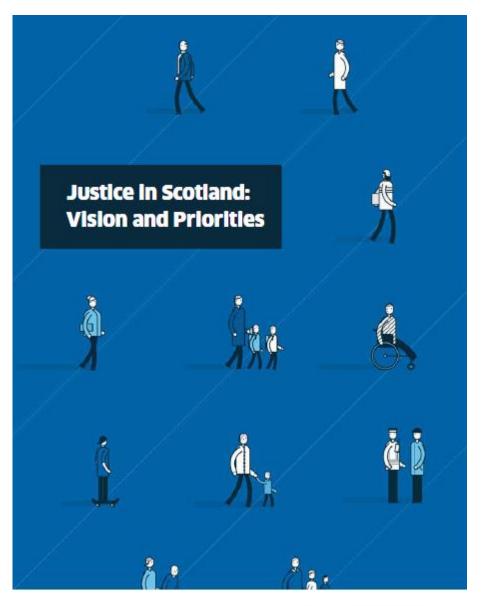

"What happens to us as children can have a huge impact on us throughout our lives... We will embed a focus on preventing ACEs and supporting the resilience of children and adults in overcoming early life adversity across all areas of public service, including education, health, justice and social work."

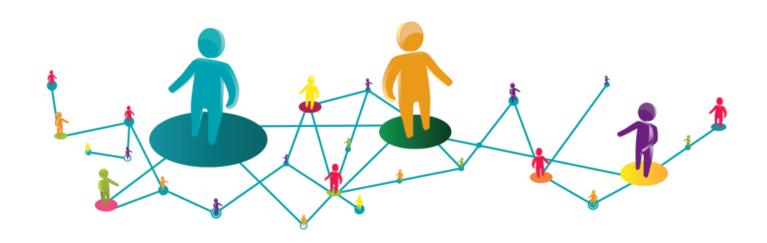

Questions along the journey

- Do we need a Scottish ACE evidence base?
- What about other adversities?
- What's the relationship with poverty?
- ACEs a passing trend?
