How much did we do?

Performance Measure 1: No of Families, Children & Parents Referred through Family Support Hubs - 2016/17

Since 2014/15 the number of families referred through family support hubs has increased year by year and now stands at 1006 in 2016/17.
How much did we do cont’d…?

Performance Measure 2: Children Referred by Age Profile 2016/17

Age 5-10 profile has consistently been the highest throughout 2016/17 within SEHSCT, however referrals for the 0-4 age group has decreased and the older age range 11-15 age group increased in referrals from 2015/16.
In 2016/17, Children with a Learning Disability had the highest number of referrals in the disability category throughout the South Eastern area, closely followed by Sensory Disability.
Performance Measure 4: Household Composition - 2016/17

Home (both parents) is the largest household composition (499) as it was in 2015/16, with Home (one parent) the second household composition with 440. There has been a small increase in the number of Guardians from 0 in 2015/16 to 6 in 2016/17 and Kinship Carers have increased from 6 to 7 in 2016/17.
In 2016/17 Emotional Behaviour Difficulty (EBD) for primary school children was the main reason for referrals at 335, the same as in 2015/16. This was followed by EBD support for pre-school children. Parenting Programmes/Parenting Support has doubled in 2016/17 to 128 compared to 61 in 2015/16 and EBD support for post-primary school children has stayed the same.

Performance Measure 10: 10 Standards Fully Implemented - 2016/17

**Standard 1.** Working in PARTNERSHIP is an integral part of Family Support. Partnership includes children, families, professionals and communities

**Standard 2.** Family Support Interventions are NEEDS LED (and provide the minimum intervention required)

**Standard 3.** Family Support requires a clear focus on the WISHES, FEELINGS, SAFETY AND WELL-BEING OF CHILDREN

**Standard 4.** Family Support services reflect a STRENGTHS BASED perspective, which is mindful of resilience as a characteristic of many children and families lives

**Standard 5.** Family Support is ACCESSIBLE AND FLEXIBLE in respect of location, timing, setting and changing needs, and can incorporate both child protection and out of home care

**Standard 6.** Family Support promotes the view that effective interventions are those that STRENGTHEN INFORMAL SUPPORT NETWORKS

**Standard 7.** Families are encouraged to self-refer and MULTI-AGENCY REFERRAL PATHS are facilitated

**Standard 8.** INVOLVEMENT OF SERVICE USERS AND PROVIDERS IN THE PLANNING, DELIVERY AND EVALUATION of family support services in practised on an on-going basis

**Standard 9.** Services aim to PROMOTE SOCIAL INCLUSION and address issues around ethnicity, disability and urban/rural communities

**Standard 10.** MEASURES OF SUCCESS are built into services to demonstrate that interventions result in improved outcomes for service users, and facilitate quality assurance and best practice

---

All Hubs within the SE Trust have implemented the 10 standards and are working on action plans to improve the delivery of Hubs in each of the areas.
Family Samples

Family A:
Mum stated that she was “at her wit’s end”. She had been at the GP several times and was feeling that she was not heard. The process of engaging with Hub meant that someone was out quickly and things began to move. Mum reports she is “very grateful” for the support she received. She feels the process was “efficient and effective”, she described the team as ‘on the ball’ and ‘very supportive’. (Mother of a 14 year old with a mild learning disability)

Family B:
“We were at the point of feeling very desperate. The process of the Hub has worked well. When children are very small there is a better network of support from peers at Parent and Toddler groups, etc. As they get older there is no network of parents around. This would be very useful. We are very happy with service and process.” (Parents of a 9 year old with challenging behaviour)

Family C:
Mother of 3 young children who was referred by her GP requested help with creating routines and structure in the home. She later reported she was “Very happy with the help and was always kept informed and reminded of meetings” and was also receiving therapy for herself.
