

South Eastern Area Outcomes Group Children and Young People's Action Plan 2017-2020

South Eastern Area Outcomes Group Children and Young People's Action Plan 2017-2020

1. Introduction

The CYPSP is the multi-agency strategic partnership consisting of the leadership of all key agencies across statutory, voluntary and community sectors who have responsibility for improving outcomes for all children and young people in Northern Ireland.

The South Eastern Area Outcomes Group is multi-agency partnership carrying out outcomes based planning at a geographical level on behalf of the Children and Young People's Strategic Partnership (CYPSP). There are five outcomes Groups each covering the geographical areas of the health and social care trusts.

Membership of the group consists of representatives from the Statutory, Voluntary, Community and Black and Minority Ethnic sectors.

The following action plan sets out how the South Eastern Area Outcomes Group will contribute towards the implementation of the Northern Ireland Children and Young People's Plan 2014 - 2017. This action plan is one document in the suite of action plans which make up the NI Children and Young People's Plan. The South Eastern Area Outcomes Group will collaborate with the other 4 Outcomes Groups, the CYPSP Groups and Regional Sub Groups in order to implement the overall Plan. The Plan is therefore a live document – at any one time the latest version of the overall Plan and the Action Plans of all of the planning groups will be available on our website at www.cypsp.org.

2. Key Themes of Northern Ireland Children and Young People's Plan

- **Early Intervention**

It is important to be clear about what we mean by early intervention. There are many different interpretations. The CYPSP defines Early Intervention as Early Years and Early Stage of difficulty.

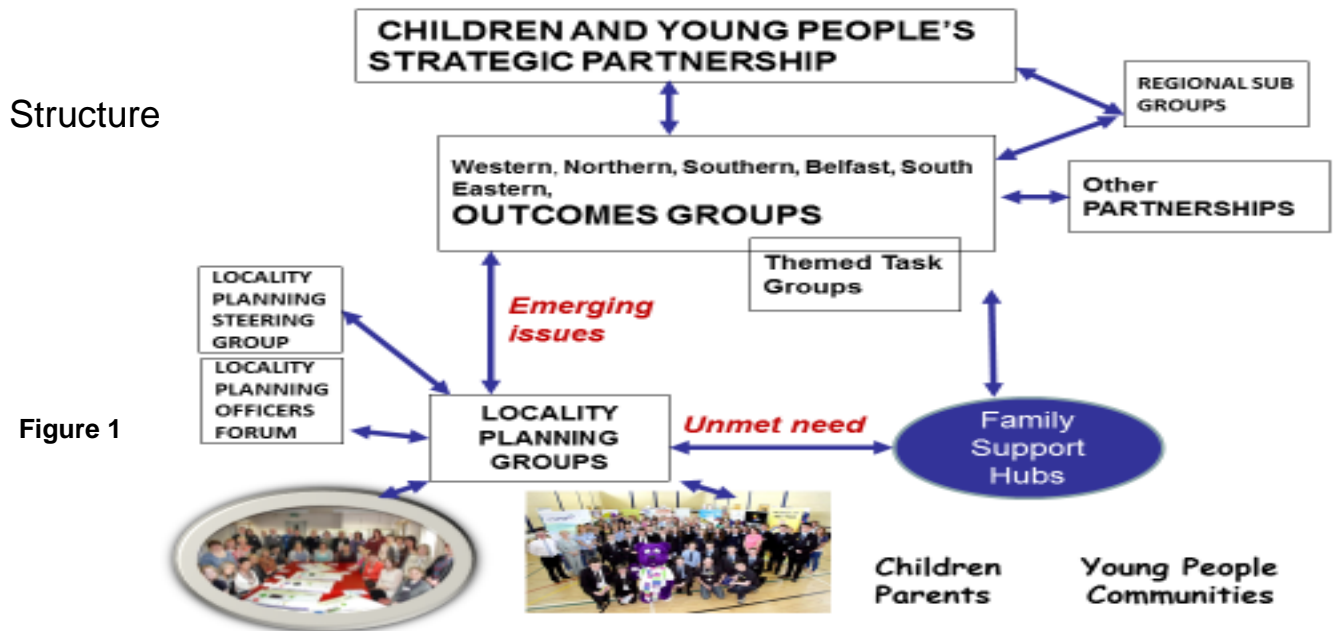

A whole society approach to early intervention – through ensuring the **network of supports and services** being present and applicable to address children's rights and needs **when** and **where** needed, and promoting an ownership within the community at large of the benefits of early intervention.

- **Resource Optimisation**

- **Integrated planning, commissioning and delivery**

3. CYPSP Structure

An overview of the CYPSP Structure is outlined in Figure 1.

4. **South Eastern Area Outcomes Group – What do we do?**

The purpose of the South Eastern Area Outcomes Group is to carry out integrated planning and commissioning for children and young people in the area, with specific emphasis on sharing resources across agencies and early intervention to improve outcomes for children and young people.

Figure 2 below sets out the key areas of action which will ensure the Group achieves its aims.

Figure 2

5. **Building the Partnership**

Membership of the Outcomes Group consists of representatives from the statutory, voluntary and community sectors. The current membership can be found at:-

[South Eastern Outcomes Group Membership 2017](#)

The importance of partnership working is recognised by the CYPSP and a number of workshops have been held to support decision making and to build relationships between sectors, organisations and other partnerships.

6. Links to other Partnerships

To enhance partnership working, dual membership arrangements also link the South Eastern Outcomes Group to the South Eastern Local Commissioning Group HSCB, the South Eastern Childcare Partnership, Making Life Better Forums, South Eastern PCSPs, Domestic Violence Partnership, Protect Life Implementation Teams, Drug and Alcohol Coordination Teams and Community Planning through Local Government Councils.

7. Locality Planning Groups

The South Eastern Outcomes Group has responsibility for four locality planning groups in the South Eastern area (*click on name to link to each webpage*):

[Ards and Down](#) [Colin](#) [Down](#) [Lisburn](#)

The role of each locality planning group is to:-

- be a **partnership** between children and young people, families, communities and representatives of agencies at locality level at a geography that makes sense to the local community;
- provide the **link** between local communities and the South Eastern Outcomes Group. (Chairs invited to attend Outcomes Group Meeting together with Locality Planning Officer);
- draw up a locality **plan** to address priorities identified through **outcomes based planning**;
- **mobilise local resources** from the statutory, voluntary and community sectors to address these priorities – as part of the Children and Young People’s Plan;
- contribute to the Outcomes Group Planning process by providing information to **inform strategic planning**; and
- **deliver locally** on actions identified within the South Eastern Area Outcomes Group Action Plan.

8. Family Support Hubs

The South Eastern Outcomes Group also ensures representation from the 3 Family Support Hubs located in the South Eastern Area. The aim of the family support hub is:-

- To improve **access** to early intervention family support services by matching the needs of referred families to family support providers;
- To **improve coordination** of early intervention family support services by creating a collaborative network of providers;
- To improve **awareness** of family support **services**;
- To **assess the level of unmet need** for early intervention family support services and inform the Outcomes Group

The location of the family support hubs are:

Ards Family Support Hub

Downpatrick Family Support Hub

Lisburn Family Support Hub

Contact:

Karen Otley, Family Support Hub Coordinator, SEHSCT

Telephone: 028 9250 1357

Email: Karen.otley@setrust.hscni.net

9. Setting Priority Outcomes

We have reviewed our previous plan and consulted widely through locality planning groups and family support hub information. We have analysed need through the extensive range of data available on the CYPSP website (<http://www.cypsp.org/performance-profile>) alongside the input from children and young people, parents and communities to influence the planning process. The focus on emerging needs in local communities is a key factor in intervening early and achieving longer term outcomes for children and young people.

10. What do we mean by “Outcomes”

Outcomes are the benefits achieved by the work we do. To achieve better outcomes for our children and young people we need to be able to measure how well they are doing now, be able to identify early, when things might not be going as well and be able to set targets for improvement.

Focusing on the child and their environment helps us to see where each agency, service, community and family can make a contribution to identifying emerging issues as well as improving outcomes. Figure 3 below sets out the key components of Outcomes Based Planning.

Key components of Outcomes Based Planning

11. Outcomes the Government wants to achieve for all children and young people

Northern Ireland Executives Children and Young People's Strategy, 2017-2027

This Children and Young People's Strategy 2017-2027 for Northern Ireland is designed to improve the well-being of all children and young people living in Northern Ireland.

Figure 3 Eight high level outcomes of the NIE Children and Young People's Strategy for Northern Ireland, 2017-2027

Children's Services Cooperation Bill NI (2015)

The Children's Services Co-operation Bill was introduced to the Assembly by Mr Steven Agnew, MLA in December 2014. The Bill amends the Children (NI) Order 1995. It requires NI departments to co-operate with each other to contribute to the achievement of specified outcomes relating to the well-being of children and young people. It creates a duty for all key agencies to cooperate in the planning, commissioning and delivery of children's services. The Bill also creates an enabling power to allow departments to pool budgets for crosscutting children's issues.

Action Plan – What we are going to do:-

VISION STATEMENT

All children and young people will flourish and achieve in the South Eastern Outcomes Area

Identifying Priorities

The outcomes group has identify three thematic priorities that will be taken forward collectively by member organisations represented on the CYPSP South Eastern Outcomes Group over the next three years. Membership of this group can be seen on Appendix 1. The table below demonstrates how the South Eastern Outcomes Group will deliver their thematic priorities in line with the eight high level outcomes of the Children and Young People’s Strategy (2017-2027) for Northern Ireland.

Overarching Children and Young People’s Strategy 2017-2027 High Level Outcomes	South Eastern Outcomes Group Priorities 2017-2020
<ul style="list-style-type: none"> • Physical and Mental Health • Enjoyment of play and leisure • Enjoying and Achieving • Respect for children’s rights 	1. Our children to reach their developmental potential
<ul style="list-style-type: none"> • Physical and Mental Health • Living in Safety and Stability • Economic and Environmental Wellbeing • Respect for children’s rights 	2. Our children will be resilient and have positive mental health
<ul style="list-style-type: none"> • Physical and Mental Health • Economic and Environmental Wellbeing • Living in Safety and Stability • Respect for children’s rights 	3. Our children get the best possible early intervention support from their families
